

the first wireless station is a base station,  
the second wireless station is a plurality of mobile stations,  
the specific packet data is packet data to its own station, and  
the packet data other than the specific packet data is packet data to another mobile station.

13. (Amended) A CDMA mobile communication system according to claim 10,  
wherein

the first wireless station is a plurality of mobile stations,  
the second wireless station is a base station,  
the specific packet data is packet data transmitted from the mobile station connected to a specific call, and

the packet data other than the specific packet data is packet data transmitted from the mobile station connected to a call other than the specific call.--

Please add new Claims 16-22 as follows:

--16. (New) A CDMA mobile communication station according to claim 3, wherein as the first data channel and/or the second data channel, one or plural channels can be set.

17. (New) A CDMA mobile communication station according to claim 4, wherein as the first data channel and/or the second data channel, one or plural channels can be set.

18. (New) A CDMA mobile communication station according to claim 6, wherein as the first data channel and/or the second data channel, one or plural channels can be set.

19. (New) A CDMA mobile communication station according to claim 7, wherein as the first data channel and/or the second data channel, one or plural channels can be set.

20. (New) A CDMA mobile communication station according to claim 8, wherein as the first data channel and/or the second data channel, one or plural channels can be set.

21. (New) A CDMA mobile communication system according to claim 12, wherein the first wireless station is a base station,  
the second wireless station is a plurality of mobile stations,  
the specific packet data is packet data to its own station, and  
the packet data other than the specific packet data is packet data to another mobile station.

22. (New) A CDMA mobile communication system according to claim 12, wherein the first wireless station is a plurality of mobile stations,  
the second wireless station is a base station,  
the specific packet data is packet data transmitted from the mobile station connected to a specific call, and  
the packet data other than the specific packet data is packet data transmitted from the mobile station connected to a call other than the specific call.--

REMARKS

Favorable consideration of this application, as presently amended, is respectfully requested.

The present preliminary amendment is submitted to place the above-identified application in more proper format under United States practice.

By the present Preliminary Amendment the claims have been amended to no longer recite any multiple dependencies. Further, the subject matter of the canceled multiple dependencies is now set forth in new dependent Claims 16-22.

The present application is believed to be in condition for a full and thorough examination on the merits. An early and favorable consideration of the present application is hereby respectfully requested.

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND,  
MAIER & NEUSTADT, P.C.
